TIP: Rooms for instrument practice
Also on the third floor, there are three “Muziekstudio’s” which are closed rooms offering a place for instrument practice: one with piano for public use and all three have music stands as standard. Take a look at: http://bibliotheek.centreceramique.nl/muziek

Research tools
The Zuyd Library website is an excellent starting point for your query. It gives access to a load of valued, reliable information.
Definition:
A **Discovery Service** is an online tool that searches multiple databases and the library’s catalogue at once. A discovery service is normally behind the search box on the front page of the library.

How to search in DiZ? Watch [this clip](https://libguides.bibliotheek.zuyd.nl/searchtools/DiZ).
Web search engine returns high quantity of results from the full range of sources available on the web. Though temptingly familiar, it is usually not recommended as the best place to start for scholarly research.

Using Google Scholar, instead of regular Google, will lead you to reliable, scholarly information.

Unfortunately, the full text of the articles may not be available. Note, though, that there are two major exceptions:

- Content owned by your library
- Open Access Journal articles

How to link Google Scholar to the Zuyd content?

- Adjust the settings in Google Scholar and select the Full-text@zuyd link
- Add Library Access to your favorite browser
Zuyd Library Staff has designed this LibGuide for Conservatorium Maastricht. You can find information on how to locate resources for music.
